

Learner Analytics: Chart the Path to Mastery with Deep Performance Insights

When learners can see their progress, they can *shape* their success. BenchPrep's Learner Analytics gives organizations a powerful new way to deliver value: by equipping learners with clear, actionable insights that drive progress and performance.

Whether learners are preparing for a high-stakes exam or completing continuing education requirements, understanding where they stand—and what to do next—can make all the difference. Through interactive visuals and targeted filters, the Learner Analytics dashboard helps learners identify strengths, uncover gaps, and stay motivated throughout their journey.

For organizations, it's not just about raw data—it's about turning that data into meaningful insights that drive outcomes. More engaged learners lead to stronger performance, higher satisfaction, and increased long-term program value.

Key Features

Performance Insights at a Glance

The dashboard surfaces a clear, visual summary of learner activity—lessons completed, questions answered, accuracy by topic, and more, making it easy to spot patterns and progress.

Interactive Dashboards with Powerful Filters

Learners can explore performance data using precise, multi-level filters by product category or content tag, allowing them to drill deep into specific topics and focus their efforts where it counts.

Flexible Admin Configuration

Tenant Admins have full control over the dashboard experience, customizing widget visibility, filter options, and layout by tenant or branch to align with program goals and branding.
